University Students Still Smoking

Kernel Staff Writer

Student Center grill ashtrays averaged 6.7 cigarette butts apiece at noon yesterday.

Students sipped cokes, borrowed cigarettes, and discussed the recent reports linking smoking and disease.

Upstairs lines of students waited to pay fees in the Student Center ballroom and chattered about the new

report.

Responses to the report were varied, ranging from shock to nonchalance

shock to nonchalance.

"Three of my roommates have already stopped smoking," a nonsmoker reported.

"I'm trying to quit smoking for the fourth time," said a premed student.

"I'm smoking a pipe instead of cigarcttes," a graduate student said.

Several students had given up smoking—since yesteriy or the day before.

"My parents were smkoling two weeks."

"My parents were smkoing two packs a day, but quit completely when the report came," a Lexington

"I think the report will have a great effect on people

to quit," a coed from Louisville said.

Many thought the report would not have much effect on smoking habits.

One student who sold cigarettes in a drug store said that cigarette sales have not fallen off. "People are buying cigarettes with strong filter, though."

"People talk more about giving it up, but as far as I can see, they're still smoking," a Bowling Green student said.

"I've never tried to give up smoking and did not seen the said.

student said.

"I've never tried to give up smoking and don't think I ever will," a veteran smoker of four years said.

"It apparently didn't have too much impact. The television men who presented the report smoked as they talked," observed a coed between puffs."

"I've tried to give up smoking, but after a week or two I'm back smoking twice as much," a commerce major said.

jor said.

Other comments were more blase.
"I tried to swkitch to a pipe and burnt my tongue. I'd rather die of caneer than live the rest of my life with a scorched tongue."
"Everybody dies anyway, and it might as well be

"The report is nothing new. My father is a chest surgeon, and I've been hearing the same thing for four years—ever since I started smoking."

"My father owns a tobacco warehouse, and I'm not about to give up smoking."

More women than men said the report would have a great impact. More women said that they and their friends had given up or were trying to give up elg-srettes.

Some students said they were cutting down on smoking rather than break the habit completely.
"I smoke only four or five cigarettes a day and don't think it has hurt me much," a senior education major

Some of the men were switching to pipes or cigars, reported to be less dangerous.

"First I smoked cigarettes, then cigarettes and a pipe,

d now a pipe alone," a graduate student said.
"We could all switch to something safer, like opium

Dean Elton Commends New Registration Plan

By GARY HAWKSWORTH Kernel Staff Writer

Registration by grade point standing is a more expedient system and can be more easily arranged to meet the needs of the University's expanding enrollment, according to Dr. Charles F. Elton, dean of admissions and registrar.

He explained that the Univer sity computer largely arranged the schedule for registration. The computer figures the grade standings, arranges them In de-scending order, and selects the predetermined cut off point. "The schedule arranged for 350 students to be registered every

hour." Dr. Elton said. He explained that as the University's enrollment grew the schedule could be arranged with 15 or 30 minutes intervals.

minutes intervals.

Dr. Eilon said that 259 students could be moved onto the floor of the Coliseum in 10 minutes. "Often we were able to register students ahead of schedule." Dr. Eilon said, "and by 12 o'clock Wednesday everyone through the low C's was registered."

"The new registration system gives better students an oppor-tunity to get the hours they pre-fer," Dr. Elton said. He did not think that the new system would unduly penalize students with lower grade standings.

"Students who must register

for class hours," explained Dr. Elton, "but if they cannot get courses they need, it is due to a lack of sections and not the fault of the registration system."

Dr. Elton said it was unfor unate that the University di tunate that the University did not offer enough sections in cer-tain courses to meet the student demand. "Course openings is not a registration problem, but a de-partment and faculty problem." Dr. Elton said, and added, "there is nothing the Office of the Reg-istrar can do about it."

Dr. Elton believed the heavy snows might have caused regis-tration to be light on the first day. He said as late registrations day. He said as late registrations arrived they were sent right through the line. "About 400 students less than expected resistered the first day," he said, "this was about 50 an hour."

He also pointed out that a great deal of time was saved by allowing students to pick up their registration cards anytime before registration and filling them out before they arrived at the Collseum. "Students who "Students what they wanted to take able to fill out their class more quickly and with less trouble," Dr. Elton

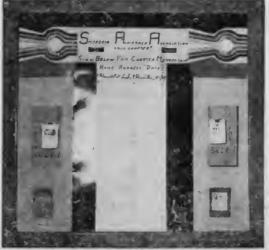

offered.

Dr. Elton said that few courses would be filled with only students in the upper grade point eatergory. "There are a few courses in which this happened," he said, "but there are not enough students with a 3 point standing and above all taking the same courses for this to happen, and the majority of courses have as great a grade range as usual."

Dr. Elton also disspelled any rumors about changes caused by the new semester system. "Nothing drastic has happened," he said, "and it should certainly not have any effects on the overall grade standings."

He did say that he was mildly surprised that the University has as many transfer students and new freshmen as it did last

"Our probation rate is not un-usually high in any of the classes," Dr. Elton assured, "and although the break down has not been computed yet, spot checks indicate that grades will remain approximately teh same as they have the past five years."

Doctors Say Quit; Producers Unworried

Kernel Staff Writer
While physicians are admonishing their patients to quit smoking and warning them of possible ill effects on their health, tobacco producer on the whole seem unconcerned over the government report on smoking and health.

Frank Welsh, executive director of the National Tobacco Institute and former dean of the UK College of Agriculture, said that the stock market does not indicate that there will be an ef-

He also commented, "We think the report has been careful and deliberate and deserves careful eonsideration."

"We agree with Surgeon General Luther Terry that further research is needed to understand the relation, if, any, between smoking and health problems. This report will not be the final chapter in the story," he added.

UK tobacco expert Ira Massle does not expect millions of Amer-icans to quit smoking. It is more likely, he said, that they will switch to eigars, pipes, or switch to eigars, pipes, or filter cigarettes, even though the report stated that "there is no evidence that filters have had any effect in reducing the health hazard."

Dr. Robert Rudd, a local ag-ricultural economist, said a sharp deciine in tobacco consumption ould greatly effect Kentucky's

Tobacco production accounts for 40 to 50 percent of the state's agriculture income, and the tax revenue from tobacco to the state aione totals \$13 million.

The 387-page report Issued Sautrday stated that the overall death rate among habitual ciga-rette smokers is 70 percent higher

The committee reported that

there is no doubt that heavy smoking is a principal cause of lung caneer, and there is strong evidence that smoking is a major cause of heart and circulatory diseases, eancer of the larynx mouth eaneer, ehronic bronchitis, and other lung diseases.

Dr. Jerome Cohn, a lung spe-cialist at the University Hospital, said this is a through report which seems to confirm earlier studies of this kind.

For some time physicians have ordered patients with chronic lung disorders to stop smoking,

"I don't suggest it. I teil them to stop," he said.

He added that it is not a simple habit to break and patient are not altogether successful in their efforts to stop or curb their tobacce consumption.

"A significant part of the population can stop smoking," he said, "but for others it seems to be an impossibility."

The evidence in the report shows that those who sm three packs a day are more suswho only smoke half a pack a day, and the incidence of disease rises with the number of years an individual has been smoking.

"It should be stressed, however, that after cancer is apparent, it's too late to stop smoking," Dr. Cohn added. "That's a bit like closing the door after the cows, horses, and everything else are

ients examine a stack of books, doubtle for a bargain text for an upcoming course. Scenes like this signaled the return to studies.

Parks Commissioner

Robert D. Bell, right, a 1949 University graduate, is extended congratulations by Gov. Edward T. (Ned) Breathitt after being named commissioner of the Kentucky Department of Parks in the Governor's cabinet.

Dean C. C. Carpenter To Quit Present Post

The dean of the College of Commerce, Dr. Cecil C. Carpenter, has submitted his resignation to President John Oswald.

Dr. Carpenter said he wished to be relieved of his post so he might devote his time to teaching

might devote his time to teaching and research.

"It is with regret that I accept Dr. Carpenter's request."
Dr. Oswaid said. "I can, however, appreciate his desire to take advantage of the time honored practice in American higher cducation which permits a person to resign as an administrator and return to the classroom."

Dr. Oswald said the University would begin the search for the dean's successor soon and would try to honor the request not later than July 1, 1965.
"He should be especially com-

than July I, 1965.
"He should be especially com-mended," Dr. Oswald said, "for his recent efforts to bring to fruition the new Commerce Building now under construc-tion."

tion."

Dr. Carpenter, dean of the college since 1948, is a native of Harrodsburg. He was graduated from UK in 1926 and received his master's and doctor's degrees from the University of Illinois.

Professor Named AAAS Member

A University professor has been ciected to the American Associa-tion for the Advancement of Society.

The society recently announced the election of Dr. T. R. Freeman, professor of dairy science. He joined the UK faculty in 1948.

Dr. Freeman, a native of West Plains, Mo., holds his bachelor of science degree from Kansas State College, his master's degree from Oklahoma A & M, and his doc-tor's degree from Pennsylvania State University.

Dr. Carpenter was professor of economics at Marshall Col-lege from 1929 until 1936 when he joined the commerce faculty at UK.

December Grad Joins EKRECC Public Relations

Jerry Schureman, a December graduate, has been appointed to the public relations staff of the East Kentucky Rural Electric Cooperative Corporation.

Corporation.

The EKRECC, with headquarters at Winchester, provides rural electric power for 92 Kentucky counties and directs the operations of 17 regional power co-ops over the state.

Schureman, a journalism major, served as co-editor of sports on the Kernel last semester.

In his new position, Schureman will be an assistant to Joe Botto, public relations director. An-nouncement of the appointment was made Monday by Hugh Spurlock, manager.

TV Star With Corpse

NEW YORK (19)—A mystery comedy, "The Push-Cart Affair" is to be the first Broadway exhibit of the husband-wife writing team, Alec and Myra Coppel. 4

The show, about a TV star who finds himself suddenly enquiphered with a corps is mark-

cumbered with a corpse, is marked down for arrival next spring. Coppel previously was represented here with "The Gazebo," written solo.

Freshman Is Champ

A University freshman has been named the 1963 Kentucky Champion Future Farmer for his farming achievements and his successful application of vocational-agricultural train-

Robert W. Thompson, Wilmore, will receive a \$100 United States Savings Bond as the top award in the 17th Annual Future Farmers of America Contest. The Courier-Journal, the Louisville Times, and WHAS. Inc., sponsored the contest.

Thompson and nine district winners will receive the awards Feb. 29 at the annual Farm Awards Luncheon in Louisville.

Sororities Try Something New; Open Rush To Start Saturday

It's rush time again. The fra-ternities have already started their mad series of bull sessions in an attempt to snow those lucky few men that made their grades. The sororities get into the act this Saturday when open

This year Panheilenic is trying something new for second semester rush. The open rush procedure means that there will be no organized rush parties, no skits, no favors, and no restric-tions on contact between rushees and sorority girls.

and sorority girls.

All women going out for rush are asked to sign with the Dean of Women's office no later than tomorrow. To be elegible for rush a student must have a 2 point overall standing and a 2 point average for last semester. Transfer students and entering fresh-

man are eligible if they were admitted to the University in good standing.

standing.

The bidding procedure is also different. A woman may receive either a written or an oral bid to a sorority. As soon as she has received it she and a member of the sorority are to go to the Dean of Women's office and sign a preference card. Promptness in signing cards is encouraged in order to eliminate confusion in case a girl receives more than one bid. girl receives more than one bid.

The rushing period will extend from Jan. 18-Feb. 9. A giri may be bid as iate as the night of Feb. 9 but she must sign her pre-ference no iater than Feb. 10.

This is the first time that rushing of this type has been conducted at UK in several years. In the past first and second semester rush have been formal with an informal period following the ciose of formal rush.

pecially without the strain of restricted contact between rushces and sorority members.

This type of rush should be more relaxed and fun for all, es-

TIPS ON TOGS "LINK"

FOLLOWING the Holidays it is always difficult to settle down and scribble this "stuff and nonense." One reason is-new things haven't arrived-(I have written about the old) and most everyone was fairly well loaded up with Christmas presents-'tis the awkward season-sort of like adolescence.

PREDICTION - Those "cotton and dacron" biazers that were so extremely popular last spring and summer, will be in big demand again this coming season -with new shades added to the selection-remember 1 told ya'.

"ALL THAT RISE MUST FALL" is the title of a new "Double-Day," book based on fiction and facts, to be released late this fall. I had the pleasure of talking last night to the young author "F. C. Partin," (freshman pre-law major) from Ft. Thomas. Ky. I understood he has about two chapters before fini-(should be very interesting reading materlal)-and I wish him much success with his work-(young to have a book published.)

HAVE YOU noticed the switch to broader width ties with broader and brighter stripes?- Take

HAVE YOU noticed coupley wearing biazers with slacks and skirts that match? I have, and I think it is quite wingy.

LIKE LOAFING COMFORT? -There is nothing as comfortable and nonchalint as a sweat shirt -they how come in a variety of colors, and of course are made of simple cotton pile—tip—buy them large-shrinkage you know

AM PLEASED to report that "Pat Greer," of "Kappa Sigma" fraternity will continue as my campus representative for this semester at UK. Pat, did a terrific job iast year.

ANSWER to a post card from "J. L. L." at Eastern College, Richmond, Ky.—I received your card too late to answer fast edition-sorry-but will do so now. The trend is to solid colored sox -the trend is not to wear white sport sox with suits and etc. Unless upon medical advice),

IF YOU spill food or beverage on your clothing, do not grab a napkin (or anything) and start brushing-that drives the foreign substance into the material, thus causing stains. Let it dry naturally and then "off to the cleaners." (Nine times out of 10) no spots or stains remain.

GREAT to see all of you back. Hope to shake hands soon!

So long for now,

Registration

It looks as though the University has finally hit on a workable system for the semiannual evil of registration. The method used for enrolling in classes for the current semester-according to grade-point standing over a three-day period-is good for two reasons.

First, it prevents the long lines and the waiting which always have been associated with registration. The Coliseum was staffed with sufficient personnel to handle a certain number of students each hour which enabled the entire process to run smoothly.

In addition, the long information cards, usually handed out at the door of the Coliseum, were distributed at the offices of the college deans when brown cards were given out. ent down the time necessary for a student to complete registration within the Coliseum.

Second, permitting the students

Wedding is destiny, and hanging likewise .- John Heywood

with higher grade-point standings to register first insures that the interested students will be able to obtain their classes and lessens the incidence of drop-add.

Better students tend to enroll in courses not on the basis of the time they are offered but rather on the subject matter. A look at the record of the courses signed up for during Monday morning's registration period would indicate that just as many early Saturday classes were selected as the more popular Monday-Wednesday-Friday classes. Therefore, this system in no way eliminates the chances of a student with a lower point standing who registers on the second day being able to enroll in these classes at popular hours.

Regarding drop-add, we feel this is caused by a student being forced to "take what he can get" he registers on the last day. Because this system of registration tends to lessen the problem of not receiving the wanted classes we feel it will also cut down on the dropping of

According to present plans, the University calendar calls for only two days of registration again next fall. We feel, however, in view of the turmoil caused by this plan in the fall semester this year and the ease with which registration was handled this time, the calendar should be changed. We hope that fall registration can be handled on the same basis as this semester's for we feel it is the best system the Registrar's Office has de-

It is with this concept in depth of friendship that Jesus spoke to his disciples and explained that he would not call them servants but, as he had been doing, regarded them as friends. (John 15:15) Jesus was the kind of a friend described above to those who knew him.

With the kind of friendship expressed in this verse a person has no

need to "save face," to attempt to convey an image, to hide his fears and weaknesses, to cover sorrows. He can truly be himself. The person who has a friend such as this is blest. Most blessed is the person who has several

Read the words again and substitute God as the friend. Jesus taught that this is the type of relationship man can have with God. This is also the type of friendship you should had among Christians. The churches of today often seem to discourage this personal friendship among members, and it is very true that many church members have no such concept. Yet, it is also true that if you look around you will find persons who will call you "friend" in all that the verse implies-they learned it from Jesus.

'A News Analysis

Indonesian-Malaysian Battle Nearly A Year Old

By KARSTEN PRAGER Associated Press Writer

JAKARTA, Indonesia-Indonesia's campaign to crush the young federation of Malaysia, which is taking U. S. Atty. Gen. Robert F. Kennedy to Tokyo for conferences with President Sukarno, will be a year old next

It has burdened Southeast Asia with a new and dangerous problem. Many observers believe it threatens the unsettled area with another war.

Indonesian Foreign Minister Subandrio proclaimed the policy last Jan. 20 in a speech to a student development briagde in Jogjakarta, when Malayan Prime Minister Tunku Abdul Rahman and the British were still working out their plans to fedcrate the British territories.

Subandrio called the policy "confrontation," adopting the term the late President Kennedy used in the Cuban missile crisis.

Indonesia's confrontation began almost ludicrously-with boycotts of Malayan movies, a ban on Malayan newspapers and a blackout of Ma-Livan radio and television programs beamed into some of Indonesia's out-Iving islands. But it picked up speed, producing bloody clashes on the Borneo border between Malaysia and Indonesia, a gutted British embassy building in Jakarta, and broken dip-Iomatic and commercial relations between the two neighbors.

Sukarno has denounced Malaysia as a British-inspired piece of neoco-Ionialism designed to perpetuate British interests and influence in Southgast Asia. Malaysian leaders and their

British backers say Sugarno wants to take over Malaysian North Borneo, as he took over West Irian (West New Guinea) from the Dutch. They say Malaysia can be an anti-communist bastion in Southeast Asia, while Indonesia's leaders must listen to the country's big, Peking-aligned, Communist Party and the Russians who furnish Indonesia's arms.

Indonesia has 100 million people and is Southeast Asia's strongest military power. Malaria has only 10 million people but britain is pledged to defend it.

Throughout the year, Indonesian pressure has danced up and down the scale, ranging from reasonableness to grim pledges to destroy the infant

Twice in the year the two main antagonists, 62-year-old Sukarno and 60-year-old Abdul Ralman, agreed to solve their problems peacefully. But most of the time they have denounced each other in a war of words across the Java Sea

Subandrio's confrontation declaration grew directly out of an anti-Malaysia revolt in the small North Borneo oil sultante of Brunei. British troops put down the rebellion quickly.

Indonesia immediately announced support for the rebels, Malaysia denounced the move-and the cold war W35 OIL

fudonesia began naval and acrial patrols along Malayan borders. Calls went out through the island nation for volunteers for the Northern Bornco rebel cause.

In late May, the two leaders met in Tokyo and agreed to quit hurling invective. They backed their temporary peace offensive with a foreign ministers meeting attended by the Philippines. They agreed that the opinions of the North Borneo people should be heard on the Malaysia issue. They scheduled a summit meeting for Manila.

A month later the "spirit of Manila" was forgotten.

The Tunku signed an agreement with Britain setting Aug. 31 as the date for the formation of Malaysia. Sukarno angrily accused the Tunku of breaking his promise and put Indoseia's "crush Malaysia" campaign into high gear.

But the Manila summit meeting was held in early August and proved more cordial than expected. Under pressure from Indonesia and the Philippines, Malaya agreed to have the United Nations conduct a survey on opinion toward Malaysia in Sarawak and Sabah.

The U.N. team found North Borneo opinion in favor of the federation. But Abdul Rahman set a date for formation of the new nation before the U.N. hading was announced. Sukarno rejected the report and resumed confrontation.

Indonesian troops moved to the Borneo border. Mass rallies on the Malaysia issue grew in number. Tension was high again.

It burst out in violent demonstrations at the Malaysian and British Embassies in Jakarta Sept. 16, the day the new nation was formally launched. On the same day Indonesia made it clear it would not recognize Malaysia. The Philippines, which

The real storm came two days later after reports from Kuala Lumpur, the Malaysian capital, said demonstrators had attacked the Indonesian Embassy there.

Thousands of angry Indonesians stormed the already battered British Embassy, sacked it and burned it to a shell. Other groups of well-organized rioters burned British property throughout the city. No one was hurt but British and Australian dependents were removed from Indo-

A few days later the Indonesian government proclaimed a total economic boycott against Malaysia, a step expected to hurt Indonesia more than its adversary. The Malaysian ports of Singapore and Penang had been Indonesia's best customers.

Clashes along the North Borneo border increased, with Malaysia charging Indonesian aggression. donesia denied the charge and hurled the same accusation at Britain and Malaysia. But Indonesian leaders admitted their country was training rebels in support of what they called the North Borneo independence struggle.

Last week Sukarno and Subandrio were back in Manila, conferring with Philippine President Diosado Macapagal, who wants to mediate the dispute. The Indonesian leaders said they were only seeking a peaceful solution, but they obviously want ti on their own terms.

Malaysia is not likely to agree.

Guignol Theatre's 'Clerambard' Is A 'Must'

'Clerambard'

Pictured from the left are Robert Cooke, as the priest; Keith Goodacre, as Vlcomte Octave de Clerambard; and Jane Lee Forrest, as Madame de Lere, in Guignol's current production of Marcel Ayme's "Clerambard." Back to camera is Rene Arena, as Countess Cierambard. The play opened Tuesday night and runs through Saturday. It is the second production of the season and is a bold, farcical comedy, done in a very professional manner. The audience is seated on three sides of the stage; therefore, only 128 seats are available for the production,

(1

Kernel Arts Editor

If there is one other "must" at the University this week, it is Guignol's excellent proof Marcel Ayme's "Clerambard."

Adjectives are so freely thrown around at times that they tend to become meaningless; nevertheless, "Clerambard" is superb, professional, delightful, and ex-

traordinary entertainment.

The production, which opened Tuesday night, is a sort theatre-in-the-round with audience's seating on three sides audience's seating on three sides of the stage. This not only affords a more intimate atmosphere, but also gives a more realistic approach to the world of make believe.

However, it also limits the number of available seats. There are only 128, so buy your tickets early. The play runs through Saturday night.

Margaret Silbar as the Flounda

Margaret Silbar, as the Flounder, carries her part with an exactness of character and depth even under the close surveillance of the audience, right on the stage with her.

She is expressive and has created the right of the trailer, who

ed the role of the trollop, who

First Of 58

Today's edition of the Kernel is the first of 58 to be published this semester. Daily issues of the Kernel may be found in Kernel boxes in all campus buildings Tuesday-Friday until May 1. For information concerning advertisements or classified ads, call ext. 2306, and for news, call the Kernel Office, ext. 2302.

Raymond Smith has the role of Comte Hector de Clerambard, the Comte Hector de Clerambard, the materialistic cynic whose vision of St. Francis of Assissi turns his family's life and the play into pandemonium. Smith does a convincing job and is particularly memorable for a scene in the second act with his newly found friend and sister—a spider.

If we aren't close enough to the action to see if there really is a spider, we can't help but believe the Comte was actually fondling and cuddling the thing as he berated his "insensitive" wife and son, not to mention his mother-in-law.

And Jane Lee Forrest's inter-And Jane Lee Forrest's inter-pretation of the mother-in-law, Madame de Lere, is one of the unforgettable highlights of "Cler-ambard." She manages to typify the most hated vision of such a personage and wears an expres-sion that a good dose of sour mash couldn't improve upon.

She is delightful in her shrewishness and hilarious in her every movement. But she is not alone. Keith Goodacre, as the son, and Rene Arena, as the Comte's wife, also do an ad-mirable job.

However, both Goodaere and Mrs. Arena seemed a little un-sure of their roles on opening sure of their roles on opening night—an observation, rather than a criticism, which is excus-able both because of their long parts and because it was the first performance of the play.

Robert Cooke, as the priest, is amusing in the part which only calls for a one-sided view of the character. His rationalizations at the end of the play will send you home laughing.

In short, Gulgnol's done it again. Charles Dickens has used imagination and ingenuity in his direction and production. The whole is professional.

Of the entire cast, only two of the minor roles seemed wooden; and those two parts were only a minor blemish.

The play is set in France around 1910 and is divided into four acts. The seenery is necessarily at a minimum but enough to set the mood.

I can safely say that Guignoi's production of "Clerambard" mea-sures up to anything I saw in Louisville's Winter Festival of plays at the Brown Theatre last year. It is just that professional,

Washington Seminar

All students who have made applications for the University's applications for the University's Washington Seminar should take the Federal Service Entrance Examination no later than Feb. 15. Application deadine for the examination is today. Application forms may be obtained in the Placement Service Office.

Derailed Express Cats Fourth Back On Track

Kernel Sports Editor
Adolph Rupp and his band of Wildcats indeed celebrated a Merry Christmas, but the New Year brought no happiness to Kentucky as its "Century Express" seemed to push out its last CHUG

Between December 20 and 31, the Wildcats had played five games including two holiday tournaments, and they exhaus-ted all their steam.

ted all their steam.

Kentucky started out full steam ahead as they pounded their UKIT opponents in winning the Christmas tourney for the second year in a row. They bounced Wisconsin in the opening round and knocked off Wake Forest the following night for the title.

The Wildcats continued riding The Wildcats continued riding the victory train with Cotton Nash engineering the "Century Express" past the crossroads at Louisville against Notre Dame and non-stop through the Sugar Bowl in New Orleans.

Loyola of the South and na-tionally ranked Duke fell vic-tim to the Kentuckian's victory skein in the Sugar Bowl, but the Duke encounter took the last ounce of steam left in the Wild-cats as the Keniuckians had to squeeze by on a last second shot by Terry Mobley to get the win.

This rapped up the year for the Cats, but before the old year had gone, the Adolph Rupp Line had breezed through 10 straight wins and chugged its way to the No. 1 railing in the country.

The first time out in 1964 the "Express" was overtaken in Atlanta by the Engineers of Georgia Tech. And just two days later, the Vanderbilt Commodores pulled the switches on the Cats for the second time and won on a last second shot from 30 feet out.

Returning home for a needed Returning nome for a needed rest, Kentucky sought revenge. Not only had they fallen from the top national ranking, but they occupied the cellar in the Southeastern Conference.

The disgruntled Wildcats took out their bitterness and man-euvered to a 2-2 conference mark with century wins over Louis-lana State and Tulane last weekend. Kentucky's point spread over the Green Wave was 42 points.

In Both Polls

Kentucky slipped only to fourth in the two national cage ratings following the loss to Vanderbilt, their second of the scason. Unceaten UCLA is on top in both polis for the second straight week. The polls are indentical this week with the exception of the ninth and tenth positions.

SEC Title Race Turned To Scramble

The annual Southeastern Conference basketabll race, believed by many experts to be a two-horse race between UK and Vanderbilt, thrown into a mad-dog scramble during the University holidays.

Kentucky's opening two losses in conference play, while ranked number one in the national polls, dropped the Cats to last spot in the conference before the conference season really started.

Vandy, victor over the Cats in the second start, was upset in their first SEC encounter by Tennessee's Vols. The Vols are UK's Saturday night opponents.

Georgia Tech and Tennessee, overlooked in preseason predic-tions and ratings, are sitting atop the SEC standings.

Many cage observers believe the four Northern Division teams (UK, Vandy, Tech, and Tennes-sce) will knock themselves off and a team from the Southern Division will take the SEC crown.

The 12-member SEC is divided into three divisions. Each team plays the other division clubs home - and - home g a me. each season. They only play teams in the other two divisions

a single game each year.

The four Northern clubs each play Florida, the best of the Southern clubs, in Florida this

Feature game of the weekend schedule will be the Collseum clash between the Cats and Vols. The game will match the Cats high-scoring "Century Express" against the defensive minded men of coach Ray Mears.

The Vols topped the Cats In oth games last sesson. They ooth games last season. They won 78-69 in overtime here and took a season-ending 63-55 victook a scason-en tory in Knoxville.

Eagle Shirtmakers Proudly Announces

NO. CALDWELL, N. J. MAN or a MISS LAUREN WINS COVETED AFFLERBACH FELLOWSHIP!

AFTER what is possibly the world's record rumination over who won a color-naming competition we have reached a decision. If you are we have reached a decision. If you can remember that far back, more than a year ago we deplored the uninspired names given to colors (light green, dark blue, etc.) as well as the sheer flights of fancy that conveyed nothing at all (Kumquat Blossom Time, December Showers, Teaneck, etc.). We asked your assistance in conjuring up new, evocative names for shirt colors, but names that also had some connection with reality; such as Whizzer White, Well Red, Navel Orange, and so on. * To make the enterprise more tempting we dangled a Grand Prize of a Traveling Afflerbach Fellowship: a glamorous weekend at Quakertown, Pa., our HQ (with a free sightseeing trip into romantic Philadelphia), or a dozen Eagle Shirts. Additionally, there were 9 Stationary Afflerbachs of 1/2 dozen Eagle Shirts offered as second prizes. * Well, here it is: The winner is none other than either W. R. Goodwin of No. Caldwell, N. J. or Janet Lauren of New York, N. Y.! They were so close, which is what held us up, that they both win the grand prize. Second prize winners will be notified by mail. Congratulations, all! * Among the thousands and thousands of splendid names submitted—some of which we shall surely use—were the following:

. 70
Forever Amber Chat Aque Ferers Aque Come Aurte Sick Bay Editorial Beige Gar Baige Nöblesso Beige Nöblesso Beige Nöblesso Beige Nöblesso Beige Nöblesso Beige Shan Franshishch Beige Jungle Boerd Black Miss Affler Black Strip Molasses Bleck Fountaim Blue Gabrial Blue Hulle Blue St. James Inlimmery Blue Furn

Injuries Plague Cat Forwards Football Rules Change In Weekend SEC Contests

"Fireman" Ted Deeken caught a cold last Saturday and was forced to sit-out the conference clash with Tulane that night. "Deek" is reported to be recovered and will be ready for the Southeastern Conference game with Tennessee this Saturday night.

Injuries plagued the Cats over the holi- of the second half and was forced out of action. Gibson was reported to be still on crutches yesterday. He is expected to be available for limited action in the Vol game.

The Cats' other starting forward, Larry Conley, was injured in the LSU game last Friday night. He saw action in the Tulane game Saturday night, but did not appear to be in top form. He is expected to be ready for full-speed duty against the conference-leading Vols.

Denes said he did not think it would hurt small schools and said other OVC coaches with whom he had talked favored more liberal substitution.
Coach Charlie Bradshaw of Kentucky, was out of town and unavailable for comment.

1964: YEAR OF DECISION

Well sir, here we go into 1964, which shows every sign of being quite a distinguished year. First off, it is the only year since 1954 which ends with the Figure 4. Of course, when it comes to Figure 4's, 1964, though distinguished, can hardly compare

to Figure 4's, 1964, though distinguished, can hardly compare with 1444 which, most people agree, had not just one, not just two, but three Figure 4's! This, I'll wager, is a record that will stand for at least a thousand years!

1444 was, incidentally, notable for many other things. It was, for example, the year in which the New York Giants played the Philadelphia Athletics in the World Series. As we all know, the New York Giants have since moved to San Francisco and the Philadelphia Athletics to Kansas City. There is a movement afoot at present to move Chicago to Phoenix—the city, not the basebull team. Phoenix, in turn, would of course move to Chicago. It is felt that the change would be broadening for residents of both cities. Many Chicago folks, for example, have never seen an iguana. Many Phoenix folks, on the other hand, have never seen a frostbite.

There are, of course, certain difficulties connected with a municipal shift of this size. For instance, to move Chicago you also have to move Lake Michigan. This, in itself, presents no great problem, what with modern scientific advances like electronics and the French cuff. But if you will look at your map, you will find Lake Michigan is attuelted to all the other Great Lakes, which in turn are attuelted to the St. Lawrence Seaway, which in turn is attuelted to the Athutic Ocean. You start dragging Lake Michigan to Phoenix and, willy-nilly, you'll be dragging all that other stuff too. This would make our British allies terribly cross, and I can't say as I blame them. Yut yourself in their place. What if, for example, you were a British costermonger who had been saving and scrimping all year for a summer holiday at Brighton Beach, and then when you got to Brighton Beach there wasn't any ocean? There you'd be with your inner tube and snorked and nothing to do all day but dance the Lambeth Walk. This, you must agree, would not help make you NATO-minded!

I appeal most carnestly to the residents of Chicago and Phoenix to reconsider. I know it's no bowl of cherries going through life without ever seeing an ignama or a frostbite, but I ask you—Chicagoans, Phoenicians—is it too big a price to pay for preserving the unity of the free world?

I feel sure that if you search your hearts, you will make the right decision, for all of us—whether we live in frostbitten Chicago, iguana-infested Phoenix, or narrow-tapelled New Haven—are first und foremost Americans!

But I digress. We were speaking of 1964, our new year. And new it is! There is, for one thing, new pleasure in Marlboro Cigarettes. How, you ask, can there be new pleasure in Marlboros when that fine flavorful blend of tobaccos, that clean ellicient Selectrate filter, have not been altered? The answer is simple: each time you light a Marlboro, it is like the first time. The flavor is such that age cannot wither nor custom stale.

ellicient Selectrate filter, have not been altered? The answer is simple: each time you light a Marlboro, it is like the first time. The flavor is such that age cannot wither nor custom stale. Marlboro never palls, never judes, never dwindles into dull routine. Each puff, each eigarette, each pack, each enrton, makes you glad all over again that you are a Marlboro smoker! Therefore, Marlboros in hand, let us march confidently into 1964. May good fortune attend our ventures! May serenity reign! May Chicago and Phoenix soon recover from their disappointment and ion our bright envalence into a brave to-

appointment and join our bright cavalcade into a brave to-

We, the makers of Mariboros, available in soft pack or Rip-top box in all fifty states of the Union, wish to join Old Max in extending good wishes for a happy and peaceful 1961.
